

# You can't control the weather, but you can prevent the damage.

The snow is gone. The salt is washed away. You are left to deal with the damage.

Now you can permanently protect your concrete and **prevent** salt and freeze/thaw cycles from destroying your concrete by using CreteDefender™.

**Apply CreteDefender for a fraction of the cost of replacing concrete.**

## Where to Use CreteDefender:

- Driveways
- Sidewalks
- Stamped Concrete
- Garages/parking areas
- Porches/Patios/Stairs
- Factory Floors
- Roads/Bridges
- Food Preparation Areas
- Foundations/Concrete walls
- Concrete tanks

- Prevent damage
- Preserve property
- Save money

## When concrete gets damaged, you face:

- Unsightly deterioration of driveways, steps, and walkways
- Safety hazards of stumbling or tripping
- High cost of repairs, or replacement

## CreteDefender permanently protects concrete from damage caused by:

- Freeze/Thaw Cycles
- Ice Melting Chemicals
- Salt and Brines

## CreteDefender:

- Works on concrete—horizontal or vertical, new or old
- Is effective within 24 hours of application
- Is NSF® approved and environmentally safe

**CRETE DEFENDER™**  
**Permanent Concrete Protection.**

# CreteDefender™ Really Works— Permanently

Developed in 1997, CreteDefender has been thoroughly tested by independent laboratories. CreteDefender has been used in the harshest environments, including bridge decks and roadways, salt storage facilities, shopping centers, and gas stations. It is used by the departments of transportation in Illinois, Ohio, Missouri, and North Carolina. It has been applied at major league baseball stadiums for both the Mets and Yankees.

With zero warranty claims in 15 years, we can honestly say that CreteDefender really works!

*The concrete in these photos was poured at the same time. The difference is that in 2008 the section on the left was also treated with CreteDefender.*

## CASE STUDY Tanger Outlet Centers

In 2007, CreteDefender was applied to the sidewalks at the Tanger Outlet Center in Park City, Utah. Over 100,000 pounds of salt are used each year on the 70,000 square feet of sidewalks. To date, there is zero damage to the sidewalks. Tanger now specifies CreteDefender for all its shopping centers.
